

Chemistry is All Around Network
Workshop on "Successful Experiences and Good Practices"
Bragança, Portugal, 2nd April 2014

Agenda

Timetable of the workshop: 16.00 – 20.00

- Brief presentation of project objectives, activities carried out and results achieved.
- Analysis of international papers and publications on successful experiences and good practices.
- Practical session “Learning guides as a tool to mediate student’s learning process” by Prof. Adília Tavares da Silva (Escola Secundária Abade Baçal):
 1. Fundamentals and advantages of using digital resources supported by learning guides;
 2. Fundamentals to construct an effective learning guide;
 3. Analysis of digital resources and testing of a learning guide.
- Discussion of a teaching resource tested at national level with the thematic “Radioactivity: beta decay, alpha decay and radioactive dating”, available at the portal Phet (<http://www.ptable.com/>).
- Planning for future digital resources testing.
- Final considerations.
