

Chemistry is All Around Network
Workshop on "Successful Experiences and Good Practices"
Limerick, Ireland, 26th March 2014

Agenda

Timetable of the workshop: 15.00 – 20.30 hrs

- Report of project progress: meetings and conference in Limerick November 2013.
- Analysis of international papers and publications on successful experiences and good practices.
- Analysis of testing of teaching resources made by partners (uploaded on the project portal).
- Planning of future/possible testing.
- Group activity. Each group will choose a resource to test and will prepare a didactic unit or a sequence of activities related. This could include ways in which a particular resource could be incorporated in a teaching sequence. Finally, the projects will be presented to the other groups.
- Discussion on teaching resources tested at national level.
- Focus on teachers' and experts' personal successful experiences.
- Plans for future activities.
- Any other business.
